You can handle a variety of terrains, from cobblestone streets to moderate hills with relative ease and without assistance. You can climb two flights of stairs with ease. There may be 1 to 2 days on this tour when walking tours can cover 3 to 4 miles over uneven terrain. Expect some full days balanced with free time to recharge or set out on your own adventure. You can handle altitudes up to 6,000 feet. While this level is appropriate for travelers that require mobility assistance devices, there could be times when you may have to sit out on some of the included activities.

If you require any special assistance while on tour, please make us aware at time of reservation so the necessary request form can be sent to your attention.

Museums may close unexpectedly or for the observance of holidays.

Experience It! Norwegian Fjords

The evolution of the fjords began some three million years ago, when Norway was covered by an ice cap thinner along the coast than inland. With the arrival of a milder climate, the ice began to melt and produce great waterfalls that logged the soil and descended to the sea. Valleys were filled in by the ocean, creating the fjords. Surrounded now by steep rocky mountains, dissected by cascading waterfalls, and decorated with thriving fruit trees, the fjords are among Earth's most inspiring landscapes. You'll often find the Fjords of western Norway at the top of annual must-see lists alongside the Pyramids of Egypt and the Grand Canyon. This dramatic masterpiece of nature is a true wonder of the world; where the air is pure, the water is clear, and nature is unspoiled. No photograph can ever do justice to the Norwegian Fjords; it is a place that must be seen to be believed.
